# HELP CREATE AN IMPACT

Since joining Fighter Club, I've also found more ways to proudly represent the movement, and I've been able to have some good conversations about it with people who recognize me as someone who speaks out and stands up against pornography.

I love getting updates about opportunities to get involved more deeply and I also love hearing about the impact our efforts has on people.

# FIGHTER CLUB'S IMPACT

Fighter Club has given me hope. I am always needing a reminder that healing is possible and that people can change. No one is stuck watching porn forever.

I'm more empowered with the knowledge to have more compassion for those struggling with porn addiction. ❤️

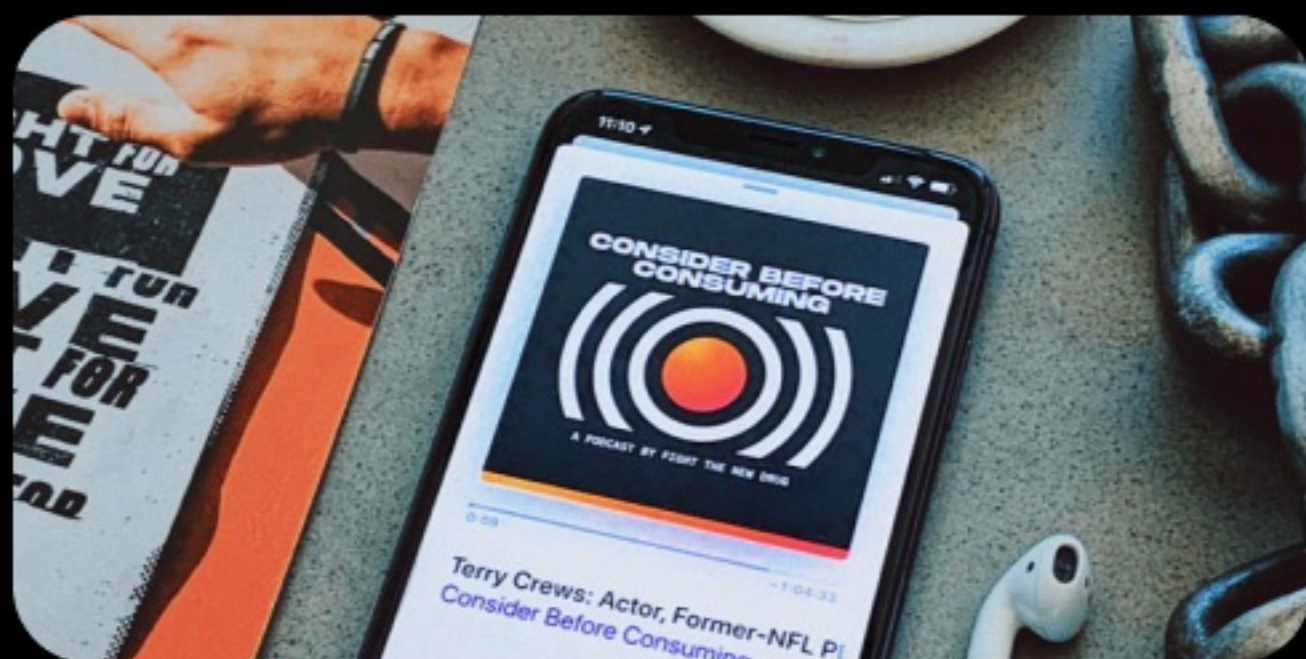

Thank you so much for all the research and resources. It has allowed me and so many others to seek freedom.
